

Java Learning Journey

Welcome to my ****Java Learning Journey**** repository!

This repo contains my notes, programs, and projects as I learn and practice Java. It is organized to make learning sequential and easy to follow.

📁 Folder Structure

- ****`JavaIntroduction/`**** – Basics of Java, HelloWorld programs, and notes.
- ****`InstallJava/`**** – Java installation guides and setup instructions.
- ****`AllPrograms/`**** – Practice programs organized by topic:
 - ****`Loops/`**** – For loop, while loop, nested loops, etc.
 - ****`OOP/`**** – Classes, Objects, Inheritance, Polymorphism.
 - ****`DataStructures/`**** – Arrays, ArrayLists, etc.

🚀 How to Use

1. Browse the folders to find notes and programs.
2. Open `.java`` files in any IDE (Eclipse, IntelliJ, or VS Code) to run them.
3. Follow the notes in `JavaIntroduction/`` to understand concepts.

✨ About Me

- ****Name:**** Afrin K A
- ****Learning:**** Java programming for practice and projects
- ****GitHub:**** [<https://github.com/account>](https://github.com/account)
- ****LinkedIn:**** [<https://www.linkedin.com/in/afrinka>](https://www.linkedin.com/in/afrinka)

> This repository will be regularly updated as I progress in my Java learning journey.
